Notes to Consolidated Financial Statements
Notes to Non-Consolidated Financial Statements

For the 30th Fiscal Year
April 1, 2016 to March 31, 2017

Net One Systems Co., Ltd.

The Company provides “Notes to Consolidated Financial Statements” and “Notes to Non-Consolidated Financial Statements” to its shareholders by posting them on its website (http://www.netone.co.jp/) in accordance with the provisions of laws, regulations and the Articles of Incorporation.
Notes to consolidated financial statements

I. Significant matters related to the basis of preparation of consolidated financial statements

1. Matters related to the scope of consolidation
   (1) Number of consolidated subsidiaries 2 companies
       Names of consolidated subsidiaries Net One Partners Co., Ltd.
       Xseed Co., Ltd.

   (2) Names, etc. of major non-consolidated subsidiaries
       Names of non-consolidated subsidiaries Net One Systems USA, Inc.
       Net One Systems Singapore Pte. Ltd.

       (Reason for excluding from the consolidation)
       Those non-consolidated subsidiaries are small in size and their total assets, revenue, the net
       income or loss for the Company’s equity interest, and retained earnings for the Company’s
       equity interest do not have a significant effect on the consolidated financial statements.

2. Matters related to application of equity method
   (1) Number of associates accounted for using equity method None

   (2) Non-consolidated subsidiaries (Net One Systems USA, Inc. and Net One Systems Singapore Pte.
       Ltd.) and affiliates (Asiasoft Solutions Pte. Ltd.) are excluded from the scope of application of
       the equity method, as their net income or loss and retained earnings for the Company’s equity
       interest do not have a significant effect on the consolidated financial statements and their
       impact are immaterial as a whole.

3. Matters related to accounting period of consolidated subsidiaries
   The fiscal year for Xseed Co., Ltd. ends on the final day of December each year. The financial
   statements as of the balance sheet date are used in preparing the consolidated financial statements.
   However the necessary adjustments to the consolidated financial statements are made for
   significant transactions that occurred during the period from January 1 through March 31, the
   consolidated balance sheet date.
4. Matters related to accounting policies

(1) Basis and method of valuation for significant assets

I. Securities

Available-for-sale securities

Securities with market value  Stated at market value based upon market value on the closing date

(Net unrealized holding gains or losses, net of the applicable income taxes, are directly included in a component of net assets. The cost of securities sold is measured by the moving average method.)

Securities without market value  Stated at cost based upon the moving average method, or at cost amortized or accumulated over the maturity based upon the straight-line method

II. Derivatives

Stated at market value

III. Inventories

Merchandise  Stated at cost based upon the moving average method (The balance sheet amount is adjusted by writing down the book value where the profitability declines.)

Costs on uncompleted construction contracts  Stated at cost based upon the specific identification method (The balance sheet amount is adjusted by writing down the book value where the profitability declines.)

(2) Depreciation method for significant depreciable assets

I. Property, plant and equipment (excluding lease assets)

Declining balance method is applied for the Company and its consolidated subsidiaries in Japan.

The major useful lives of assets are:

Buildings 3-23 years
Tools, furniture and fixtures 2-20 years

II. Intangible assets (excluding lease assets)

Straight line method is applied for the Company and its consolidated subsidiaries in Japan.

The major useful lives of assets are:

Software for own use 5 years
Software for sale 3 years
III. Lease assets

Lease assets in finance leases that transfer ownership to the lessee

Lease assets are depreciated using the same manner to the accounting for the noncurrent assets owned by the Company.

Lease assets in finance leases that do not transfer ownership to the lessee

Lease assets are depreciated using the straight line method over the corresponding lease terms as useful lives with their residual values to be zero.

(3) Basis for significant reserves

I. Allowance for doubtful accounts

Allowance for doubtful accounts is recorded to provide reserve for possible losses on receivables based on the historical uncollectible rate for ordinary receivables and on an estimate of individual collectability of specific doubtful receivables from debtors in financial difficulties.

II. Provision for bonuses

Provision for bonuses is recorded to accrue the amount for bonuses to employees of the Company for the fiscal year.

III. Provision for directors’ bonuses

Provision for directors’ bonuses is recorded to accrue the amount for bonuses to Directors and Audit & Supervisory Board Members of the Company for the fiscal year.

(4) Other significant matters related to the basis of preparation of consolidated financial statements

I. Bases for translation of significant foreign currency denominated assets and liabilities into Japanese yen

Monetary assets and liabilities denominated in foreign currencies are translated into Japanese yen at the spot exchange rate on the closing date of the accounting period, with translation difference charged to income or loss.

II. Significant hedge accounting method

a. Hedge accounting method

Deferral hedge accounting is applied. However, monetary claims and liabilities denominated in foreign currencies subject to forward foreign exchange contracts are translated at the foreign exchange rates stipulated in the contract if the forward foreign exchange contract satisfies the requirements for this treatment. (“Furiate-short”)

b. Hedging instruments and hedged items

Hedging instruments:  Forward exchange contract
Hedged item:  Planned transactions denominated in foreign currencies
c. Hedging policy
The Company employs hedging instruments to manage risk exposure to fluctuations in foreign currency exchange rates for foreign currency denominated payables in connection with the purchase of operating assets in the future, in accordance with the Company’s internal management regulations which provide the limitation policy on transactions amount and the authorization policy on execution.

d. Assessment of hedge effectiveness
Assessment of hedge effectiveness is omitted for foreign currency forward exchange contracts since their hedge relationship is deemed highly effective.

III. Method and term of amortization of goodwill
Depending on the source of occurrence, the amortization of goodwill is carried out within a five year period using the straight line method.

IV. Accounting for consumption taxes
Transactions subject to national consumption tax and local consumption tax are recorded at amounts exclusive of consumption taxes, and national and local consumption taxes unqualified for deduction are recorded as expenses for FY2016.

5. Additional information
(Application of ASBJ Guidance on Recoverability of Deferred Tax Assets)
Effective from the current fiscal year, the Company adopted the “Guidance on Recoverability of Deferred Tax Assets” (ASBJ Guidance No. 26, issued on March 28, 2016).

(Note) Figures are rounded down to the nearest million yen.

II. Notes to changes in representation methods
(Consolidated Balance Sheet)
“Lease investment assets,” which had been included in “Other” in current assets up until the previous fiscal year, was separately presented from the current fiscal year because its monetary significance increased.

“Lease investment assets” for the previous fiscal year was 2,726 million yen.

III. Note to consolidated balance sheet
Total accumulated depreciation of property, plant and equipment 24,275 million yen
IV. Notes regarding consolidated statement of changes in net assets

V. Financial instruments

1. Status of financial instruments

(1) Policy on treating financial instruments

With regard to the fund management, the Net One Systems Group utilizes highly secure financial assets for temporary surplus funds. Also it is our Corporate Group's policy to utilize derivatives to avoid foreign exchange fluctuation risks pertaining to operating debt denominated in foreign currencies and not to use derivatives for speculation.

(2) Details of financial instruments, and risks and risk management system thereof

Notes and accounts receivable-trade, which are operating receivables, are exposed to customer credit risks. To manage these risks, the status of collection of these receivables from counterparties is periodically monitored and the due dates and balances are managed for each counterparty pursuant to the internal management regulations; and efforts trying to identify at an early stage and reduce losses from doubtful accounts caused by their worsened financial positions are made.

Short-term investment securities are commercial papers and exposed to security issuer credit risks. There are, however, few credit risks because the Corporate Group only invests, pursuant to the internal management regulations, in securities issued by entities with high ratings.

Investment securities, mainly consisted of stocks issued by companies with business relations, are exposed to risks of the stock issuers' financial positions. The Corporate Group periodically examines the issuers' financial positions and continuously reviews the stock holdings in consideration of relationships with the issuers. In addition to the aforementioned risks, foreign stocks are also exposed to foreign exchange fluctuation risks.

Default risk of accounts payable-trade, which are operating debt and whose due dates are within one year, on due dates, are managed by a timely fund management. Some of accounts payable-trade are denominated in foreign currencies and exposed to foreign exchange fluctuation risks, but these risks are hedged by forward exchange contracts.

Derivatives adopted are forward exchange contracts used for the purpose of hedging foreign exchange fluctuation risks arising from operating debt denominated in foreign currencies. The basic policy on derivatives is determined by the Board of Directors, and the Finance & Accounting Department executes and manages derivative transactions pursuant to the internal management regulations which define the transaction limit amount and the transaction authority. Regarding hedging instruments and hedged items, hedging policy and method of assessing hedge effectiveness in hedge accounting, please refer to the aforementioned (4) II. “Significant hedge accounting method” in “I. Significant matters related to the basis of preparation of consolidated financial statements, 4. Matters related to accounting policies.”

(3) Supplementary explanation to matters regarding fair values of financial instruments

The contracted amounts related to derivatives, mentioned in “2. Matters regarding fair values of financial instruments,” in themselves, should not be considered indicative of the market risks associated with the derivatives.
2. Matters regarding fair values of financial instruments

Consolidated balance sheet amounts and fair values as of March 31, 2017, and their variances, of financial instruments, are as follows. However, financial instruments whose fair values are deemed to be extremely difficult to measure are not included (Note 2).

(see table below)

(Note) 1. Method of fair value measurement of financial instruments and matters regarding securities and derivatives

   (1) Cash and deposits, and (2) Notes and accounts receivable-trade
   Since these accounts are settled in a short period of time, their fair values are nearly equal to their book values. Therefore, their book values are deemed as their fair values.

   (3) Short-term investment securities
   Fair values of commercial papers whose maturities are within three months from the acquisition are nearly equal to their book values.

   (4) Accounts payable-trade
   Since the account is settled in a short period of time, the fair value is nearly equal to the book value. Therefore, the book value is deemed as the fair value.

   (5) Lease obligations
   The total amount of lease obligations (liabilities–current) and lease obligations (liabilities–non current) is presented.
   The fair value is the discounted present value of total principal and interest using an assumed interest rate on equivalent new lease transactions.

   (6) Derivatives
   I. Derivatives to which hedge accounting is not applied: None.
   II. Derivatives to which hedge accounting is applied: Contracted amounts or notional amounts defined in contracts as of consolidated balance sheet date for each hedge accounting method are as follows:
### Hedge accounting method

<table>
<thead>
<tr>
